## Importing NFT on the Metamask wallet

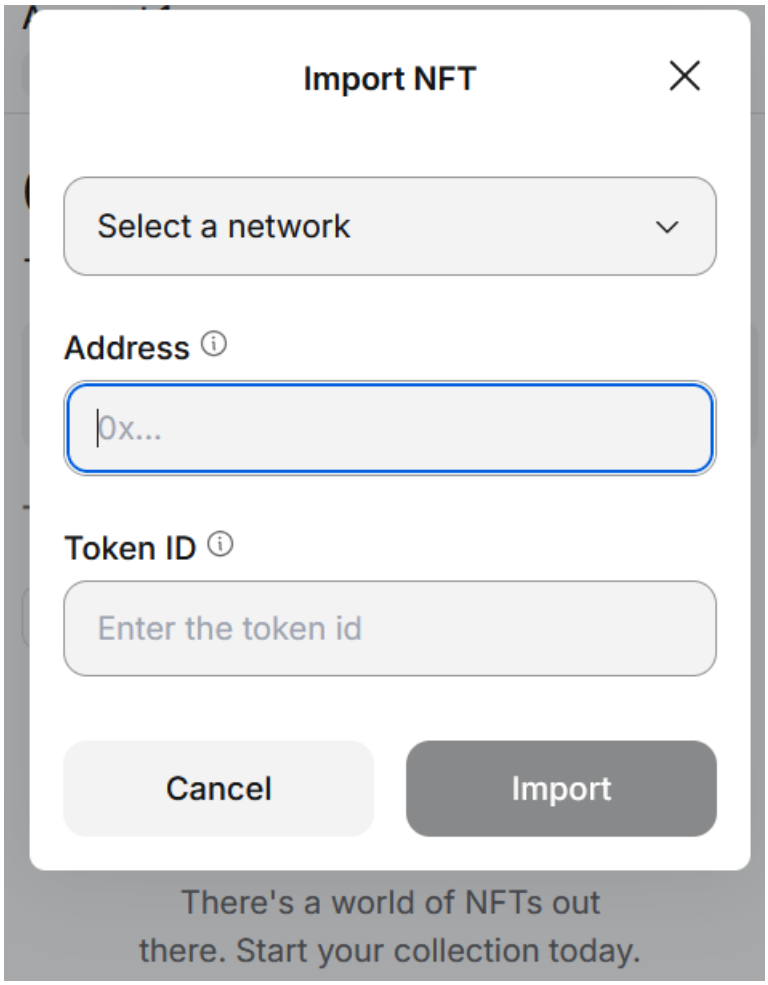

Please go to NFTs tag on the Metamask wallet.

Please choose Network to Sepolia network.

Please click the “Import NFT” button as shown in the screenshot below.

Import NFT dialog box will appears as shown below.

Please select the network to “Sepolia”.

In the “Address” text box, please enter the S**mart Contract Address** as shown on the “My Graduation Certificates” page.

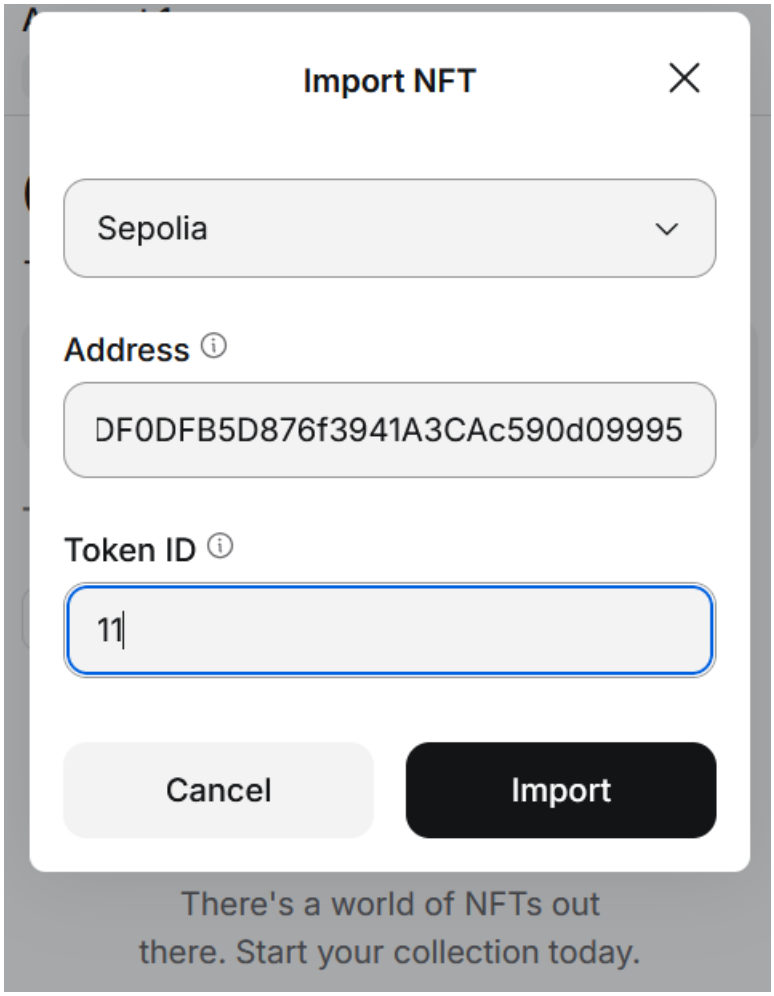

In the “Token ID” text box, please enter the **Token ID** value from the same “My Graduation Certificates” page.

After that Click “Import” button.

**Example:**

Smart Contract Address: 0x89E8D9cC76DF0DFB5D876f3941A3CAc590d09995

Token ID: 11

After that, we can now see the NFT Token on the smart contract as shown in the screenshot.
